RISK FACTORS

McKee Botanical Garden's summer program is ideal for children interested in learning about Florida's wildlife and natural environment. Part of the activities will allow participants to be in contact with wild animals and exploring the outdoors. This experience can be very fun and rewarding. Even though many safety precautions exist, there is always the potential to be injured, bitten or scratched when working with live animals and exploring nature. It is important that you understand and accept these risks before registering your child for this summer program. It is also important that you and your child understand that appropriate behavior is required at all times.

WAIVER FOR MINORS

I accept all risks inherent to the summer education programs at McKee Botanical Garden, including the additional risks that exist when working with or around wild animals and exploring the outdoors, and do hereby release McKee Botanical Garden, its third-party vendors, as well as their directors, officers, agents, employees, and members from all liability for injury during the summer program activities. It is further understood that the Garden is not responsible for the loss of personal property, and I understand that daily drop off is no earlier than 8:15 a.m. and I must pick up my child no later than 3:15 p.m. I understand that my child is expected to maintain appropriate behavior. If my child is having difficulty in this area, I understand I will be notified and may be asked to remove my child from the summer program.

I have read the risk factors listed above, and this waiver, and fully understand its contents. I am aware that this is a release of liability and have signed it on my own free will.

Parental Signature _____ Date _____
